237990 – Other Heavy and Civil Engineering Construction

COMPANY OVERVIEW

Millard Mountain Fence & Deck LLC is a construction and infrastructure company specializing in durable security, agricultural, and wildlife-friendly fencing solutions. Established in 2019 and led by a 25-year Senior Enlisted Army Veteran with 15 years of industry experience, the company delivers high-performance fencing systems focused on containment and land management. Our experience is built on project management, systems repetition, and detailed planning for residential, commercial, and agricultural environments. We focus on efficient, long-lasting installations tailored to each site's needs, including steel fabricated and treated wood bracing, barbed, high-tensile, and wire fabric fence products.

PAST PERFORMANCE

- **Holt Homes** – Constructed over 7,500 feet of cedar privacy fencing for a new neighborhood development across multiple phases, collaborating with other industry professionals (\$225,000).
- **Oregon Freshwater Trust** – Installed approximately 2,000 linear feet of 8 ft. tall fencing with custom gates and latching systems for buffalo and wildlife management. This project supported the Ashland riparian zone restoration to boost biodiversity and carbon sequestration (\$80,000).
- **MAG (Southern Oregon)** – Completed 3,000 linear feet of large-scale chain-link fencing and commercial gates to secure wholesale auto auction assets, including access for semi-truck car hauler deliveries (\$78,000).

DIFFERENTIATORS

- 15+ years of hands-on fencing and construction experience across multiple states
- Veteran-owned leadership with strong project management and operational discipline
- Proven ability to design and execute solutions for complex security and containment challenges
- Focus on durability and low-maintenance infrastructure (“built to last” approach)
- Established network of skilled trades (electrical, plumbing, concrete, asphalt) enabling full project support
- Strong reputation with repeat residential and agricultural clients

CORE CAPABILITIES

- Custom fence, corral, and livestock handling systems using recycled oil drill pipe
- Wildlife-friendly and land management fencing
- Gate automation and access control systems
- Chain-link and security fencing
- Custom gate fabrication
- Concrete work and site preparation
- Land clearing and property development support
